**Whenever I speak at seminars or consult with clients, I often get the question:** How can I start to build my mailing list on a shoestring budget?" After all, many beginning marketers don't have the deep pockets necessary to run massive advertising campaigns to generate leads.

The method I'm revealing in this report is just one small, incredibly simple concept that provides an answer to this question. In fact, with the method I'll explain to you, you can actually get paid to build your mailing list. Yes, you can produce profits of \$18,000... \$36,000... \$72,000... even \$108,000 a year or more... as you grow your list.

**The method I reveal in this report works incredibly well.** I've used it – and I know of a handful of other smart marketers who have used it, too. You'll see that it combines the best of online and offline marketing to create a constant monthly income – plus a growing mailing list (which, if you know how, can create lifelong financial freedom for you).

Best of all, you can use this step-by-step method to create a system that can produce profits for you for months or even years. Then, you can build more of these "profit-makers", put them on autopilot, and let them make money for you - while they're building your list.

**This one method has the potential to help you build a large, responsive buyer list - as well as a solid extra income source.** Really dedicate yourself to using it, and it could potentially create enough income to replace your current income. Then, you can start putting more advanced money-making techniques into place – and start making \$100,000 to \$1 million a year or more.

# How to Get Paid While You're Building Your Mailing List

## 1. Sign up for your FREE Clickbank Account

Go to:

<http://www.JoinClickbank.com>

Click the "Sign Up" link on that site to get your own Clickbank affiliate account. There's no charge.

(See. The system is pretty simple, so far.)

## 2. Research and Find Hot Products in Clickbank's Marketplace

Go to:

<http://www.clickbank.com/marketplace.htm>

On Clickbank's main Marketplace page, you'll find a search box at the top of the page. For this method, we're looking for what are considered "money-making" products.

To find the best-selling money-making products, select "E-Business & E-Marketing" from the Category list. (If you wish to narrow your search further, you can select a subcategory like "Affiliate Marketing" or "Paid Surveys".) Then, select "High Gravity" in the drop down box next to "Sort Results By". Choose "50" for results per page.

The screenshot shows the Clickbank Marketplace interface. At the top, there is a search bar and navigation options. The main content area is divided into a left sidebar with categories and a main results area. The 'E-business & E-marketing' category is selected in the sidebar. In the results area, the 'Sort results by' dropdown is set to 'Gravity', and the 'Results per page' dropdown is set to '50'. The first product listed is 'The Cash Code - \*New From Michael Jones, Top CB Affiliate.' with an average price of \$39.82. Other products include 'SEOlinkVine - Get 1000s Of Quality, 1-Way, In-Content Links!' with an average price of \$22.88. The sidebar categories include Arts & Entertainment, Betting, Business / Investing, Computers / Internet, Cooking, Food & Wine, E-business & E-marketing (circled in red), Affiliate Marketing, Article Marketing, Auctions, Banners, and Blog Marketing.

**You'll immediately get a page of the top 50 best-selling money-making products in the Clickbank marketplace.**

Clickbank's system ranks their listings by a variety of factors. However, I chose "gravity", because it ranks them by how well the products are converting (selling) for their affiliates. And, since we're going to become an affiliate of these products, we want to make sure we choose products that are converting well.

**Here's the definition of "gravity" as used by Clickbank, from their website:**

**Gravity:** *Number of distinct affiliates who earned a commission by referring a paying customer to the publisher's products. This is a weighted sum and not an actual total. For each affiliate paid in the last 8 weeks we add an amount between 0.1 and 1.0 to the total. The more recent the last referral, the higher the value added.*

*All factors are combined, and adjusted such that more recent sales activity is given greater weight. To improve their Marketplace ranking products must show a history of reliably converting referred traffic to paying customers over the past 8 weeks. Products that maintain a higher ranking naturally attract more affiliates, and make more sales overall.*

Start reviewing the sales pages for each of the top products. You can do this by clicking the red underlined name of each product.

**When I originally used this method, "Paid Survey" programs were really big.** The top 3 to 5 programs in the "Money & Employment" section of Clickbank's Marketplace were all "Paid Survey" programs. (Clickbank recently updated their category names. "Money & Employment" has been changed, but you can still find these types of products re-categorized under "E-Business & E-Marketing")

**The site below is actually the site that held the #1 spot for quite a while – and was #1 when I used this method.**

**15) [PaidSurveysOnline.com](#) - Making Affiliates Huge Profits And Low Refunds. Join The #1 Get Paid F Opinion Affiliate Program! Highest Converting Site Online!! This digital product sells for \$34.95, but affiliates keep 75% on every sale (minus Clickbank fees).

During your research, you will want to check out these listings to see which products pay you the biggest profits (75% is the maximum through Clickbank). You may even want to purchase some of these products to check out their quality. You want to make sure you're only selling the best information. After all, what good is making a pile of money if you end up having to give it back in refunds?

**Select 1 main product to promote and 4 secondary products.**

It helps if the products you select are related in some way. For example, when I used this method, I chose all “Paid Survey” products. You may be selecting a group of “Internet Marketing”, “Stock Investing”, or “Real Estate” products.

**Next, create your “hoplink” (your affiliate link) for each product.**

You can do this by clicking the “Promote” button in the product description.

### 3. Sign up for a WealthWorldTouch Autoresponder Account

To build your mailing list, you’ll need to get an autoresponder. Fortunately, the top-of-the-line autoresponder systems can be gotten for dirt-cheap prices.

I suggest **WealthWorldTouch**, because it’s one of the easiest to use and they have great email deliverability. If you’re on a strict budget, you can pay month-to-month for only \$19.95 per month. Or, if you can afford it and you believe you’ll be using their service for at least a year (you should be), you can get a year’s worth of service from WealthWorldTouch for only \$179.40 (That’s \$14.95 a month). That’s a savings of \$60 off of their monthly price.

**You can sign up for your WealthWorldTouch autoresponder at**

**<http://www.wealthworldtouch.com/>**

An autoresponder is a system that captures your prospects contact information and then “automatically responds” to your prospects via email when they contact you. You can pre-load messages into your autoresponder, so that whenever someone contacts you, they get an instant reply, even if you’re on vacation. Plus, you can also set up multiple message in your autoresponder, so your prospects can get weeks, months, even years worth of messages – automatically. You simply pre-load the messages into

the autoresponder, set the schedule for when they'll be emailed out to new prospects, and that's it. The system does the rest of the work for you.

If you want to fully take advantage of this system, I suggest using WealthWorldTouch's autoresponder service.

#### 4. Set up your autoresponder messages

Next, you'll want to pre-load a few messages into your autoresponder. As you'll notice in the sample emails below, I've included a domain name (URL) inside each message. However, you won't get a domain name until Step 5 of this report. Remember, you can always set up your autoresponder emails – then go back in and add your domain to your messages.

#### Here are some examples of simple messages I created when I used this method:

##### **Autoresponder Message #1: Mailed Instantly Upon Entering Contact Information**

This message is sent instantly to remind the prospect, via email, that they actually joined your website. Plus, I want to "train" the visitor to watch for emails with the subject [FastSurveyCash] – so they won't immediately mark those as "Spam" when they arrive.

Subject: [FastSurveyCash.com] Thank You For Joining!

Dear {!name},

Thank you for signing up at  
<http://www.fastsurveycash.com>

Tomorrow, I will send you my TOP recommendations  
for making money with surveys from home.

Please keep a look out for my email!

Best Wishes,  
The Fast Survey Cash Team  
[www.fastsurveycash.com](http://www.fastsurveycash.com)

*[Note: WealthWorldTouch.com can automatically personalize each email with the prospect's name, both in the body of the message - as well as the subject line. The {!name} placeholder is where the system would enter the customer's first name.]*

##### **Autoresponder Message #2: Mailed the Next Day**

Short, simple, to the point. People want recommendations, so we're giving them recommendations. 3 affiliate links promoting my secondary affiliate products. (I'll explain how we promote my #1 affiliate product in a moment.)

Subject: [FastSurveyCash] My Top 3 Recommendations

### **Autoresponder Message #3: Mailed 7 Days from Sign-Up**

This goes out 7 days from when they FIRST signed up. We send it out in 7 days, because it's likely they're at their computer the same time each week. If they signed up on a Sunday night, it's likely they're at their computer again, 7 days later, on Sunday night. WealthWorldTouch's system can do this for you automatically.

Subject: [FastSurveyCash] I Can't Believe It!

Hi {!name},

I Can't Believe It!

A week ago, we showed you our TOP recommendations for receiving the HIGHEST commission checks just by simply filling out easy surveys.

Well, today... I just found ANOTHER incredible site that is making people more money with paid surveys.

Here's a testimonial from one couple who also

found this service:

"My Husband and I couldn't be more ecstatic!  
We went from our 9-5 jobs to working from home  
and involving your company in everything that we  
do! Every time we go to the movies it's paid for,  
we get free electronics and better yet **we make  
EASY CASH!** Our first month we brought close to  
\$4,000 with both my husband and I working an  
average of 4 hours a day!"

Sarah and Dave S.

It's called the Surveys 4 Checks.

The Fast Cash Survey Team  
<http://www.fastsurveycash.com>

P.S. If you missed my email from before, here are  
My Top 3 Recommendations from a few days ago:

1. <http://freead8291.expresspay.hop.clickbank.net>
2. <http://freead8291.survey272.hop.clickbank.net>
3. <http://freead8291.paidetc.hop.clickbank.net>

## **Additional Autoresponder Messages:**

**Even though your prospects requested information about one particular topic, you don't want to overwhelm them with the same info, over and over again.** In the money-making field, people want to know about a wide variety of ways to make money. So once you've sent a few emails, promoting the Clickbank products you've chosen, it's time to promote different money-making products that appear in Clickbank's Marketplace.

**Future autoresponder messages can promote unrelated products from the "E-Business & E-Marketing" or even "Employment and Jobs" categories in Clickbank.** For example, some of the other products we tested in our autoresponder sequence were Jeff Mulligan's CBMall, The Rich Jerk ebook (which sold well for quite a while), and a "How to Make Money with Your Blog" product.

If you're using WealthWorldTouch, it's easy to create and load these messages into your autoresponder.

## 5. Get a domain name

Go to <http://www.thedomaincenter.com> – or the domain registrar of your choice – and search for a domain name that fits the product you’ll be promoting.

For example, when I was planning to promote “Paid Surveys”, I registered [www.FastSurveyCash.com](http://www.FastSurveyCash.com).

Try to make your domain short (2 to 3 words), if possible. Make sure there are no dashes or hyphens and that you only register the **.com** version of the domain. A domain through [www.thedomaincenter.com](http://www.thedomaincenter.com) should cost you less than \$10 bucks.

If the good domains are gone (many are), try adding one of these phrases to the END of your domains:

- Zone
- Central
- Concepts
- OnTheNet (or OnTheWeb)
- Connection
- Outlet
- Planet
- World
- Headquarters (or HQ)
- Universe
- Ville
- SuperStore
- Showcase

## 6. Get Hosting for Your New Opt-In Webpage

My current Hosting Recommendation: [www.WealthWorldHost.com](http://www.WealthWorldHost.com)

You can host your new domain, with your upcoming webpage, for only \$6.95 a month.

## 7. Create an Opt-In Page & Upload it to Your Domain

This step is made up of a variety of tasks. To complete these tasks you’ll need html editing software and a little bit of html editing experience. If you use WealthWorldHost for your hosting, they have a free site builder system that you can use to build your site.

**Please Note:** If you’re a “techno-phobe” – and you have NO clue what “html” even is, do NOT let this stop you. I know of at least 2 Internet multi-millionaires who are clueless when it comes to html design. If you don’t know how to create this one webpage yourself, you can post this project on Elance ([www.elance.com](http://www.elance.com)) and find a low-cost website designer who can do this for you easily for under \$100 bucks. All they need to do is create a site ([www.fastsurveycash.com](http://www.fastsurveycash.com) is one example) and then load your WealthWorldTouch autoresponder web form code into it. That’s it.

## **A. Design Your Opt-In Page**

The simpler, the better. An opt-in page simply gives the visitors a taste of what you have to offer... some “teaser copy”... and gives them the opportunity to “opt-in” (add themselves to your autoresponder) – in order to access “your” website - which is actually *your affiliate link*.

For this method, your opt-in page will do two things for you. First, it gets the visitor to give you their name and email address. Second, after they opt-in, it re-directs them to the main product you selected in Clickbank to promote.

**When I used this method, I created a very, very simple webpage.  
You can view it online at [www.fastsurveycash.com](http://www.fastsurveycash.com)**

Basically, I used a simple yellow box for the background, wrote a headline, added testimonials I found on main affiliate product’s website, and that’s it. *It took me about 15 minutes total.*

Please feel free to copy the page template I used to create your own opt-in page. Just make sure to change the wording and the opt-in coding. (Again, if you don’t know how to do any of this, you can find a website designer at [www.elance.com](http://www.elance.com) to do this for you for under \$100 bucks.)

## **B. Add Your Autoresponder Web Form to the Page**

Inside your WealthWorldTouch account, you’ll need to create html code to add to your webpage – to add the opt-in form that requests your visitor’s name and email address. Inside your account in WealthWorldTouch, you’ll simply create a new “Web Form” as you’re setting up the autoresponder for your new webpage.

In the Web Forms section, you can easily create the form you (or your website designer) will put on your new webpage.

# **IMPORTANT:**

When you’re setting up your web form, you want to make sure that you set your “Thank You Page” to **your affiliate link** for the product you selected as your main product in the Clickbank Marketplace.

**Here’s why:** When someone visits your opt-in webpage, they’ll have the option of entering their name and email in order to access the information you’ve teased them about. Once they opt-in, you want them to be instantly forwarded to the sales page of the product you’re promoting. The one you selected from Clickbank.

WealthWorldTouch lets you do this when you create a web form. They ask you to enter the website address for your “Thank You Page” – the page where visitors go once they opt-into the web form. Simply type in your affiliate link for the main Clickbank product you selected to sell in step #2 – and that’s it.

Now, whenever ANYONE who visits your opt-in page gives you their name and email address, they'll immediately be sent to the product you selected to promote – through your affiliate link.

### **C. Upload Your New Opt-In Page to Your Domain**

Once the site design is complete and the autoresponder form (web form) has been added, upload the page to your domain. You can use FTP or whatever means available to you, using the html editing software you have.

Again, if you don't know how to do this, you can easily find a website designer to do this for you for \$100 or less at [www.elance.com](http://www.elance.com)

## **8. Write Your One-Inch Ad**

Now that your opt-in page has been created, it's time to **start marketing**.

You'll want to take some time to create a small 5 to 15-word display ad that you will place in the money-making, business opportunity, and home-business magazines.

For example, when I wrote the ad for my site, [www.FastSurveyCash.com](http://www.FastSurveyCash.com), I knew that people who read these magazines want to know how to make money (obviously). So I created a short 3-word headline that would grab their attention and hit their hot-button. Here it is:

**\$125 an Hour!**

Next, I followed up by adding a phrase that explained how – and made it seem very easy:

**Filling Out Simple  
Online Surveys**

And then, I added my website address:

**FastSurveyCash.com**

Here's a picture of the one-inch display ad I wrote, after it had been designed.

You don't have to actually design your own ad, because most of the magazines you'll be placing your ads in can do it for you. They have a lot of experience and, in most instances, it's a free service they offer when you place your ad with them.

## 9. Place Your Ad in the Money-Making Magazines

Next, you start placing your ads in the money-making magazines. **Here are the money-making magazines I recommend you advertise in.**

Business Opportunities Handbook  
[www.busop1.com](http://www.busop1.com)

Entrepreneur Magazine  
[www.entrepreneur.com](http://www.entrepreneur.com)

Home Business Advertiser

**However, before you place your ad, there are two secrets you need to know about placing ads in print magazines.**

### **SECRET #1: Do NOT Pay “Rate Card”**

A “rate card” is simply a listing of the magazine’s rates for the advertising space they have available. Most magazines have their rate cards available on their websites (usually through an “Advertising” link). Larger magazines have full-color rate cards they’ll mail to you – mainly to make their five-figure and six-figure advertising rates seem less outlandish. :0)

**One of the worst mistakes you can make when placing advertising in magazines is paying what the magazines have listed on their rate cards.** Often, you can get a discount on your advertising of 15%... 25%... even 50%, simply by asking the advertising sales rep...

**“What’s the best deal you can give me on this size of an ad?”**

No hard-core negotiation. No long, agonizing “back-and-forth”. This short phrase simply lets them know that YOU know that their rate card has some “wiggle room” built in – and you’ll almost always get a discounted rate. I’ve been advertising in magazines for over a decade – and I never pay the prices on the rate card.

## **SECRET #2: Consider Using An Advertising Broker**

When I only want to run an ad in one publication, I’ll contact the magazine’s sales department directly. However, if I want to run ads in multiple publications, I can often save more money by finding and advertising through an ad broker. Because the broker buys massive amounts of advertising, he/she can get deep, deep discounts. The ad broker then passes these savings onto his/her clients.

**I’ve used a variety of “ad brokers” over the years – and have been able to get absolutely amazing ad rates.** Best of all, some ad brokers will design your ads for you – and can even give you inside information on which ads and ad designs are currently working best.

When I placed my one-inch display ad promoting my new site, [www.fastsurveycash.com](http://www.fastsurveycash.com), I used an ad broker to place the ad. (I found him by browsing the same money-making publications I wanted to advertise in.) It can be tough to get deep discounts on smaller display ads going directly through magazines, so I contacted my ad broker.

**I placed my 1-inch ad for [www.FastSurveyCash.com](http://www.FastSurveyCash.com) in 6 money-making and home business magazines, with a total circulation of 803,000 readers.**

<u>Magazine:</u>	<u>Circulation:</u>
Home Business Advertiser	23,000
Home Business Magazine	200,000
Home Business Connection	140,000
Money-Making Opportunities*	120,000
Money ‘N Profits	70,000
Small Business Opportunities	250,000
<b><u>Total Circulation:</u></b>	<b>803,000</b>

*(\*Unfortunately, Money-Making Opportunities is no longer published.)*

The normal cost to place my one-inch display ad in all of these magazines would have been **\$1,556**.

Because my ad broker buys advertising space in these (and other) magazines in bulk, he was able to save me a pile of money. **In fact, he saved me over 50%.**

**This advertising package, which would have cost me \$1,556, cost me only \$725.**

**I saved \$831** – AND my ad broker designed the ad for me – AND sent a copy of the ad to all of the magazines for me with a placement order. I simply paid my ad broker – and he took care of the rest.

If you're not working with an ad broker, you can find them online by searching "ad brokers" or by picking up copies of the money-making and home business magazines. Sometimes ad brokers will look for new clients by advertising in the magazines.

## 10. Watch Your Numbers

Once the ads are placed, you're done.

**All that's left to do is watch the numbers to make sure you're making a profit.**

Here are my own numbers when I tested [www.fastsurveycash.com](http://www.fastsurveycash.com)

### Results of My List-Building, Money-Making Test

#### **Total Profit I Received (My 75% Commissions): \$1,738.65**

These were sales made when people visited my site, opted-in, and then bought the product my web form forwarded them to, through my affiliate link. All tracked by Clickbank – and sent via check, every 2 weeks.

#### **Commissions from Additional Affiliate Products: \$573.25**

These were sales made from the secondary products I promoted in autoresponder messages #3 and #4. (My cost for the autoresponder is only \$179.40 a year – but it made me \$573.25 in extra cash through just a few follow-up messages)

#### **Total Profits: \$2,312.40**

#### **MINUS – My Cost to Place the Ad: \$725**

#### **MINUS - Opt-In Page Set-Up Costs: \$362.80**

For one-year of WealthWorldTouch's autoresponder for \$179.40, one-year of website hosting at \$6.95 per month (\$83.40 per year), and \$100 for a website designer to do the work of designing and setting up your webpage. *(However, once you pay those costs out of your first month's profit, you've paid for your WealthWorldTouch autoresponder AND your hosting for the next 11 months!)*

#### **Net Profit: \$1,224.60 in 30 Days**

Oh yeah...

**Remember: The point here was to make a profit AND build a list.**

From that one ad, **I added 1,439 leads** to my mailing list.

Did you get that?

**I just added 1,439 buyer leads to my mailing list... that I can promote my products or other affiliate products to - AND I made an extra \$1,224.60 in profit in 30 days.**

**What's next?**

Simply contact your ad broker or the magazines – and tell them to keep running your ad “til forbid” – which basically means, keep running the ad until it's no longer making you money. If it stops making you money, simply ask your broker to stop running it – and create a new one.

### **11. Start the Process All Over Again – and Create More Sites & Ads!**

In this example, I generated over \$1,224.60 in “money-in-the-bank” profit with one small display ad that I ran one-time in 6 money-making and home-business magazines.

Let's say that YOU followed my 10 steps – and you duplicated my profits.

**If you continued to run that ad – and it continued to make \$1,224.60 in profit every month... you'd make \$14,695.20 in profit in one year.**

And remember, the product you're selling is not YOUR product. You are simply an affiliate for someone else's product. So you will never have to deal with customers, customer service, or refunds. That's all taken care of for you, by the company you're an affiliate of.

This means that, as long as your ad is making you money, you can let it run... and run... and run – month after month – for years... making you automatic money.

**Yes, once you've created the site and your ad, they can work for you... 24-hours a day, 365 days a year... making you money – even while you're on vacation.**

**Remember:** The real money is in building your mailing list. So even if your ad is BREAKING EVEN (meaning, you're not making money, but you're not losing money either), it's still worth it to keep the ad running.

**Now here's where it gets really exciting.**

Once you set up this system and have it running on autopilot, it's time to do it again.

**Find another hot-selling money-making product.**

Create your opt-in page with an autoresponder form (WealthWorldTouch gives you an unlimited number for no additional fees).

And place another ad.

2 ads, making you a monthly profit of \$1,200 each, is \$2,400 in your pocket every month. **That's \$28,800 a year on autopilot.**

4 ads, making you \$1,200 each, is \$4,800 a month, or **\$57,600 a year in automatic profits.**

6 ads, making you \$1,200 each, is \$7,200 a month, or **\$86,400 a year in automatic profits.** And remember, that's AFTER all of your costs are paid. That's "money-in-the-bank" profits.

However, even just a few ads, only making you \$250 to \$500 a month in profit, can easily make you a solid part-time income – that can pay off your mortgage faster, pay for vacations or college education, or simply increase your lifestyle. :0)

## **And Remember: The bigger your list grows, the more money you can make.**

Because once you've created the list, you can mail them other related offers. Simply find high-quality offers, become an affiliate, and mail them to your list.

Or, better yet, create your own products based on the proven winners you've already promoted - and then YOU can pocket 100% of the profits.

**It's a simple system, but one that works incredibly well.**

Try it – and then please contact me through [www.millionaireintraining.com](http://www.millionaireintraining.com) to let me know how much money you've made. I'd like to hear your "Success Story" after you use this method.

### **A Final Note from Jeff Gardner**

Making more money really isn't that difficult.

**It's all about knowing what to do and how to do it.**

Remember when you couldn't ride a bike? Then, in an instant – after a lot of struggling – you could.

Wobbly at first. But then more confidently.

**And soon, you were an old pro.**

It's the same with making money.

If you've been stuck working for someone else, you simply don't have the "How To" figured out yet.

**And if what you're doing now isn't making you money, doing more of it... or working "harder" ... isn't the solution.**

The key is to find someone who knows how to make money – and find out their blueprint.

Watch them carefully – and see how they're doing it.

Then try it yourself.

You may start out a little wobbly. But as the money starts to come in, you'll gain confidence - and start to try new things that can help you increase your income even more.
